

To View Pictures in Snap Dragon

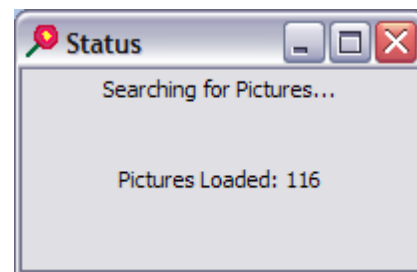

Click File -> Find Pics

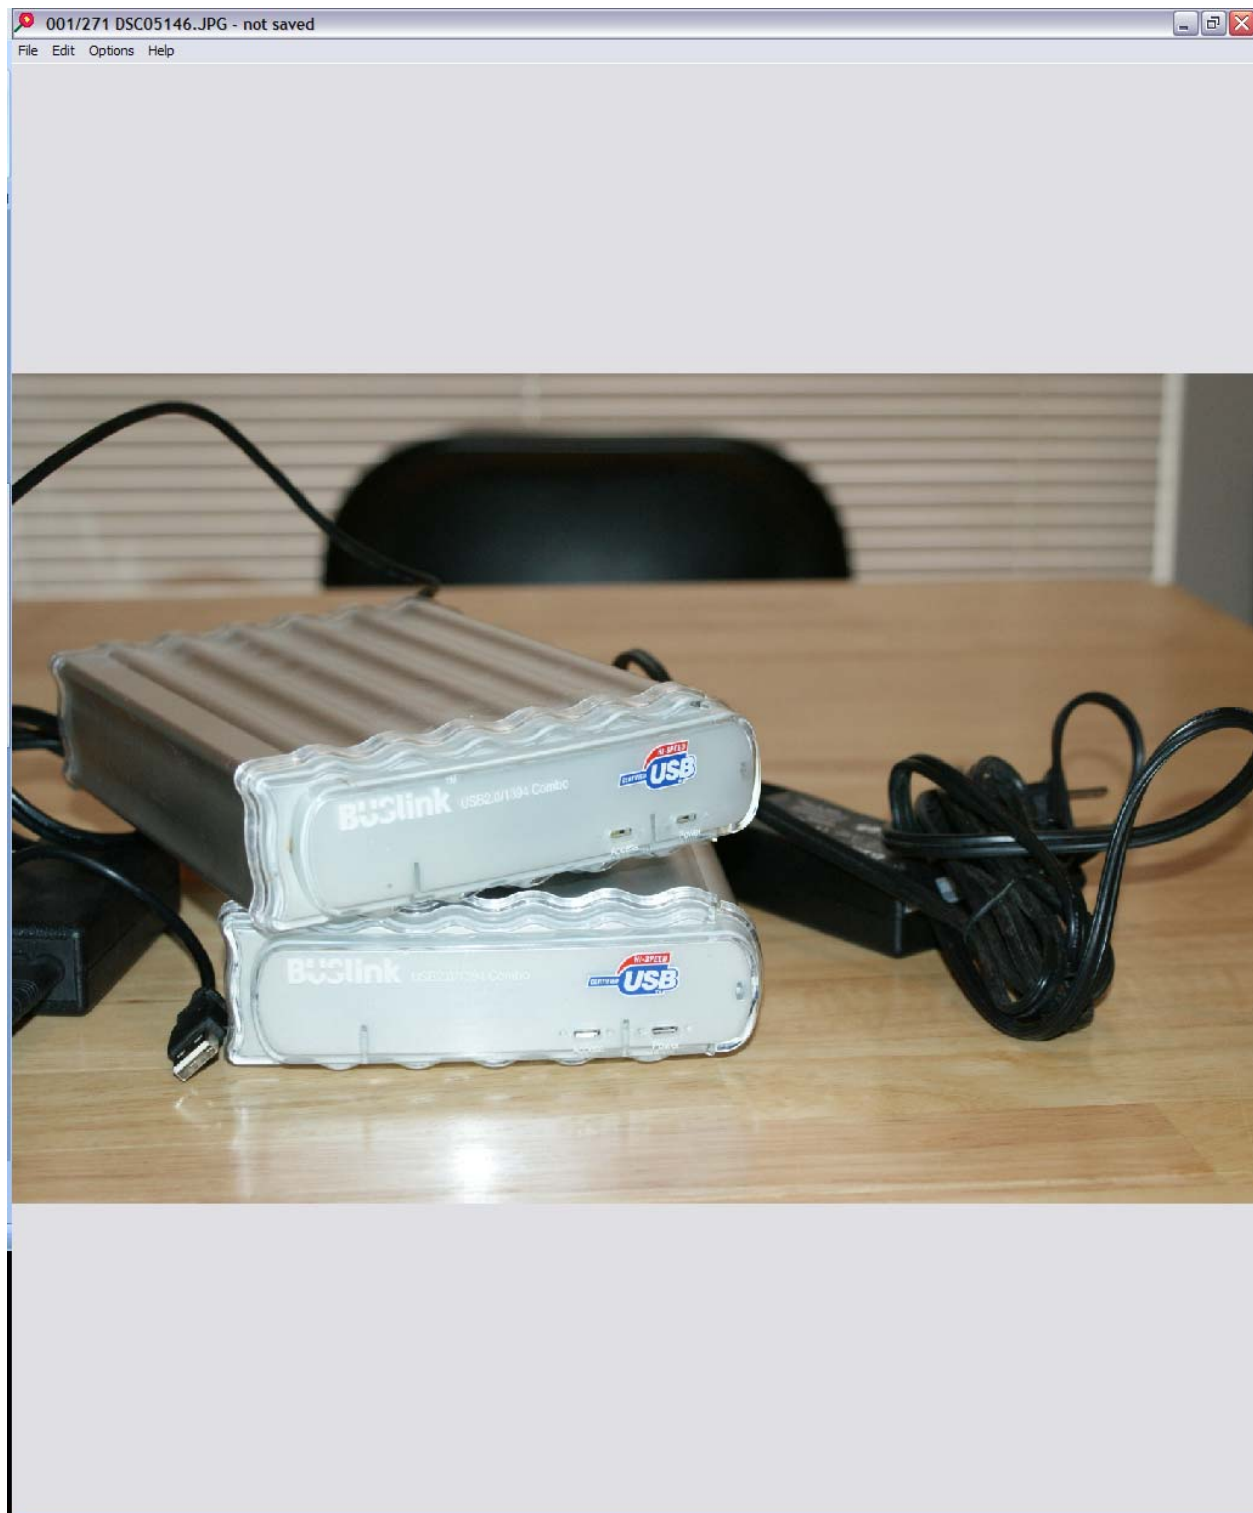

Browse to the folder that contains the photos you want to view

Click "Ok" and Snap Dragon will bring in every picture in every folder under the one you selected. A count will be displayed on the amount of pictures being loaded.

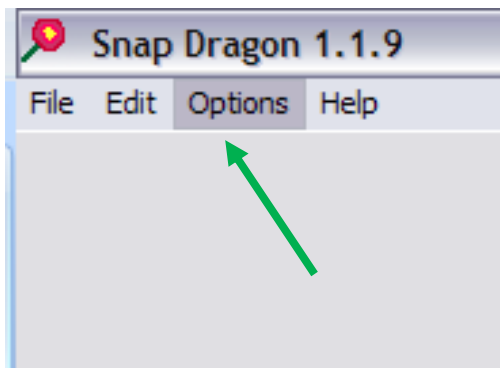

Once all the pictures have been loaded the first will be displayed.

Advanced Picture Finding in Snap Dragon

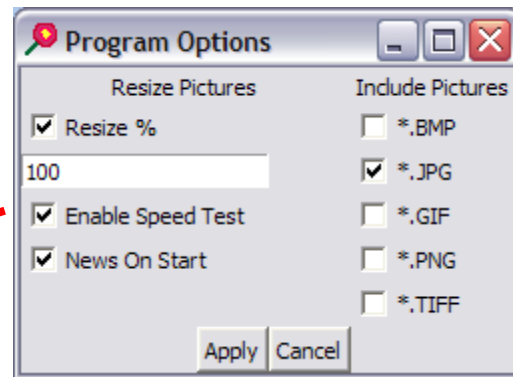

Searching for particular picture file type like .jpg files.

Click Options -> Settings

Uncheck every picture file type except for "*.jpg"

Click Apply

Now search for pictures and Snap Dragon will only bring in .jpg files, ignoring all the rest.
